

Good evening,

I am writing to express support for the Democrat's Bill to implement the HREOC's Same Sex Entitlements report recommendations.

My partner and I are repeatedly disadvantaged by the discrimination in legislation relating to tax (e.g. Medicare surcharge), superannuation and the Medicare Safety Net. We would simply like equal recognition, as implied by an "anti-discrimination" government.

The Howard Government is hypocritical in its indefinite deferral of these recommendations, and it is not acceptable.

The Democrats' initiative in this matter have won the support of me and my family.

Regards  
Sarah
